E x p e r i e n c e

Dicks Sporting Goods: DSG Girls, Walter Hagen, VRST Golf

Assistant Designer

June 2022-September 2023

-I help the designer bring each season to life by sketching, creating flats in Illustrator, creating spec sheets, and maintaining techpacks in PLM. I take notes in meetings and correspond with overseas factories to ensure production is smooth.

Daisy

Technical Designer, Surface Designer

March 2021- Current

- I helped launch a collection of dog collars for a start-up company owned by a social media influencer. I worked with the founder to create surface patterns for the collars and designed the technical aspects of the collars. Creating flats, spec sheets, and tech packs were a large part of my job. I was included in the factory outreach and development process.

Calia, Dicks Sporting Goods

Apparel Design Intern

June 2021-August 2021

- I assisted the senior designers by creating flats and updating PLM while learning the role of a designer in a corporate environment. I gained extensive knowledge of construction for athletic wear.

Marchesa

Atelier Intern

June 2019- September 2019

- I assisted in the day-to-day activities in the atelier, including sourcing materials, hand-stitching embellishments for VIP clients, and copying patterns.

S k i l l s
